SKILLS & INTERESTS

- Management Skills
- Computer Literate (Programming, Web Development, App Development)
- ChatGpt

OBJECTIVES

Dedicated and ambitious IT student seeking an internship opportunity to apply theoretical knowledge gained throughout the pursuit of a Bachelor of Science in Information Technology. Eager to further develop practical skills, collaborate effectively in a professional setting, and contribute to the success of a dynamic team. With a focus on software development, particularly in Android app development and PHP-based web applications, I aim to bring innovative solutions and a strong commitment to quality to your organization.

FIELD EXPERIENCE

Software Developer   **2023 – 2024**

- Engaged in the complete software development lifecycle, encompassing the design, coding, testing, and maintenance of various software applications.
- Proficient in Android app development using Android Studio, contributing to the creation of intuitive and user-friendly mobile applications.
- Demonstrated expertise in web development, specifically in PHP, with a focus on designing and implementing robust and scalable websites such as the Barangay Information Management System.
- Conducted thorough testing and debugging processes to identify and resolve software defects, ensuring the delivery of high-quality and reliable applications.
- Kept abreast of emerging technologies and industry trends to incorporate innovative solutions and best practices into software development projects.
